Certifications: Financial Modeling (NASBA), Business Analysis (IIBA/PMI), AWS Data Engineering, SAP GTS

EDUCATION

University of Illinois Chicago | College of Business Administration

B.S., Finance, Information & Decision Sciences; Concentration: Business Analytics & Supply Chain

Achievements: Cum Laude · Dean's List (6 semesters) · Chancellor's Service Award · UIC Volunteer Award

CFA Level I Candidate (Nov 2026)

May 2026

Chicago, IL

PROFESSIONAL EXPERIENCE

Quantitative Research Analyst Intern

Michael B. Michael Investment Fund, \$150K AUM

Jan 2025 – May 2025

Chicago, IL

- Built a **20+ page** investment thesis and DCF model on Gap Inc., deriving **\$43.12 fair value** vs. \$21.01 market price (**105% implied upside**); approved live by investment committee with a **1% allocation (\$1,200)**.
- Automated data ingestion pipelines in Python and SQL reducing processing time by **40%**; applied Monte Carlo simulation to stress-test assumptions across bull, base, and bear scenarios.
- Screened securities using Python-based factor models ranked by signal strength and risk-adjusted return; co-authored a consumer sector analysis (paper + presentation) using Bloomberg Terminal, Market Pulse, and Charles Schwab equity ratings.

Mirae Asset Sharekhan

Finance & Investment Intern

Jul 2024 – Sep 2024

Mumbai, India

- Supported analysis and servicing for **20+ client portfolios** representing approximately **\$1.5M in assets**, assisting with equity and derivatives research across the Nifty 50 and Sensex.
- Automated recurring Excel reporting and validation workflows, reducing processing time by **30%** and improving data accuracy during a CRM migration.

Recreation and Wellbeing — University of Illinois Chicago

Operations Supervisor

Nov 2023 – May 2026

Chicago, IL

- Managed **50+ weekly operations** and redesigned onboarding for **30+ staff**, sustaining a **zero-incident record** over **6 semesters** and cutting ramp-up time by **40%**.

PROJECTS & LEADERSHIP

Chargeback Risk Intelligence v2.0 | [Node.js](#), [Python](#), [Claude API](#), [SQLite](#)

Full-Stack Fintech Risk Platform

2026

Chicago, IL

- Built a **23-feature ML scoring engine** with live API, JWT auth, multi-tenant DB, webhook ingestion, ROI calculator, and Claude API narrative generation across **125+ country** profiles, cutting analyst review time by an **estimated 60%**.

ClearSpend Analytics | [Co-Founder](#) · [GitHub](#)

AI-driven vendor spend analysis platform

Jan 2026 – May 2026

Chicago, IL

- Built Python models at **92% accuracy** on held-out test set, acquired **5 clients in month one**, and delivered **\$15K+** in identified savings through ETL pipelines and KPI dashboards supporting **3 enterprise pilots**.

ESG Automation Platform — WITCH FOR FITCH | [Python](#), [OpenAI](#)

Winner — 2025 Chicago Tech Circle Competition (10 competing teams)

2025

Chicago, IL

- Built a Python pipeline automating ESG disclosure extraction from financial filings; reduced cost from **\$2.50 to \$0.06 per PDF** and increased monthly capacity from **1,600 to 28,800 (18× faster, 56× cheaper)** — won **1st place** among 10 teams.

Lending Club Credit Risk Model | [LightGBM](#), [Python](#), [SQL](#)

Quantitative Credit Risk Modeling

2025

Chicago, IL

- Engineered **150+ borrower features** to build a LightGBM classifier, raising default prediction accuracy from **57% to 95%**; modeled potential loss reduction under historical portfolio assumptions with full written report.
