EDUCATION

University of Illinois Chicago College of Business Administration	Expected May 2026
<i>B.S. Finance, Information & Decision Sciences; Concentration: Business Analytics & Supply Chain</i>	Chicago, IL
<i>Dean's List</i> — 5 consecutive semesters (Spring 2023 – Fall 2025) · Chancellor's Student Service Award · UIC Volunteer Service Award	

PROFESSIONAL EXPERIENCE

Mirae Asset Sharekhan	Jul 2024 – Sep 2024
<i>Finance Intern</i>	Mumbai, India
- Analyzed 20+ client portfolios worth \$1.5M AUM, preparing performance metrics and investment diagnostics that identified gaps and drove 3 new client acquisitions through consultative engagement. - Automated Excel-based financial tracking and reporting workflows, reducing monthly close time by 30% and delivering 100% accuracy across all financial statements and ledger accounts. - Validated 100% of KYC profiles during full CRM migration, coordinating cross-functionally to ensure zero compliance gaps and complete regulatory adherence across all accounts.	
Recreation and Wellbeing — University of Illinois Chicago	Nov 2023 – Present
<i>Intramural & Outdoor Field Supervisor</i>	Chicago, IL
- Managed day-to-day operations for 50+ weekly events across 5 programs, coordinating scheduling, procurement, and real-time incident resolution over 6 consecutive semesters with zero incidents. - Maintained compliance records for 30+ staff members and evaluated 20+ candidates per semester, implementing structured onboarding that reduced ramp-up time by 40% each cycle. - Recognized with the Chancellor's Student Service Award and UIC Volunteer Service Award for outstanding operational contribution and leadership across the university community.	

PROJECTS & LEADERSHIP

ClearSpend Analytics Co-Founder, Project Manager	Jan 2026 – Present
<i>Consumer Acquisition & Market Fit Stage</i>	
- Co-founding AI-driven vendor spend optimization platform; built Python ETL pipeline with 92% classification accuracy across enterprise spend categories, modeling \$2.3M+ in projected annualized savings. - Leading go-to-market strategy, financial modeling, and enterprise pilot outreach while managing cross-functional teams across engineering, design, and business development workstreams. - Designing KPI dashboards and automated reporting infrastructure to surface real-time cost optimization opportunities and support data-driven partner decision-making.	
ESG Automation Platform — WITCH FOR FITCH Python, OpenAI	Nov 2025 – Dec 2025
<i>Winner — 2025 Chicago Tech Circle Competition (10 competing teams)</i>	
- Engineered financial data pipeline automating Scope 1–3 ESG extraction in 20 seconds at 95% consistency, eliminating manual review and reducing false positives to zero across all datasets. - Re-architected backend with multi-step validation, boosting throughput 1,700% and delivering a solution 56× cheaper and 18× faster than existing human-based review processes. - Outperformed 10 competing teams by combining financial domain expertise with production-grade automation, cutting per-run cost from \$4,000 to under \$72 at scale.	
Advanced Investment Management — Student Equity Analyst UIC FIN 456	Jan 2025 – May 2025
- Managed Consumer Goods sector in a \$150K real-money portfolio using Bloomberg Terminal; built DCF model yielding \$43.12 target vs. \$21.01 market price (105% implied upside). - Produced monthly FP&A reports via Bloomberg, reconciling sector-level performance variances and proposing 1% tactical reallocation that was approved and implemented by the portfolio committee. - Presented 20+ page investment thesis to faculty and investment committee, demonstrating financial modeling depth and strategic communication with measurable recommendation outcomes.
